Learning platform

A private Moodle site for the library, member courses, assessments, and staff onboarding.

> **RECOMMENDATION**
>
> Use Moodle LMS. Courses, quizzes, grades, search, and a secure exam browser are included. Three free plugins cover certificates, the reader’s name on each page, and protected video. The first version needs no custom software.

THE SITE

AREA	WHO	WHAT THEY DO
Library	Members	Search and open sermons, recaps, manuals, policies, video, audio, and learning materials.
Courses	Members	Watch, read, complete the course, and receive a certificate.
Assessments	Members and academic officer	Sit quizzes in a secure browser. The officer sees score, average, grade, and attendance on one report.
Onboarding	Employees	Complete the checklist for their department and job role, and see progress as tasks are done.

FROM THE SKETCH

ITEM	DELIVERY
Sermon archives	A catalog entry per sermon, searchable by name, with the recording embedded.
Ministry manuals	Faithline Manual and Counseling manual as online books. The reader’s name and email appear on the page.
Staff onboarding	Segments, groups, and progress checklists are built now. Task text is added when each list is confirmed.
Member courses	Video and readings in a course. A certificate is issued when completion rules are met.
Assessment portal	Quizzes in Safe Exam Browser, which blocks screenshot keys until submit. One saved report for the officer.
Library	One catalog for every content type. Sermons and both manuals live here, so there is a single search.

KEEPING MATERIAL ON THE SITE

LAYER	WHERE	EFFECT
Online pages	Library and courses	Read on screen. Source files are not placed in the library.
Named pages	Manuals and courses	The logged-in name and email are printed on the page. A photograph of the screen still shows who was reading.
Protected player	Video and audio	The link expires and belongs to that person. Save is blocked, their name sits on the picture, and capture attempts are logged.
Secure browser	Every assessment	Safe Exam Browser, built into Moodle. Screenshot keys and switching apps stay off until the assessment is submitted.

Recommended start: secure browser on assessments only. It can also be required for a manual or a course. An Android exam app is optional if tests are taken on phones.

WORKPLAN

PHASE	WORK	DONE WHEN
1 · Foundation	Site, logo, four areas, and the four roles.	Each role can log in.
2 · Protection	Online books, named pages, protected player, secure browser.	A sample page shows the reader’s name, and a sample assessment blocks screenshots.
3 · Library	Catalog, search by name, and both manuals published.	A member finds a sermon by name and reads both manuals.
4 · Courses	Course template, completion rules, and certificate.	A test member receives the certificate.
5 · Assessments	Quizzes, grade letters, and the officer’s report.	The report shows score, average, grade, and who sat.
6 · Onboarding	Department and role groups, plus an empty checklist for each segment.	A test employee sees only their list. Tasks are added when you send them.
7 · Handover	Trial of each role, and a short guide for adding sermons, courses, assessments, and tasks.	A manager can add a new item from the guide.

NEEDED FROM YOU

- Sample sheets are on the next page.
- People, logo, and signatory before building starts.
- Library list and both manuals before phase 3.
- Course sheet before courses open.
- Assessment sheet and questions before the portal opens.
- Onboarding sheet when each segment is agreed.

SET ASIDE FOR LATER

- Moodle Workplace, the paid staff product.
- A live class register. Quiz logs already show who sat.
- The Android exam app, unless phones are required.
- Secure browser on everyday reading.
- Loading the full archive. Your team adds items after handover.

One login covers a person who is both a member and an employee. Included at handover: both manuals, the catalog, one sample course, one sample assessment, and the onboarding shells.

MATERIALS FROM YOU

Send one spreadsheet per sheet. Keep these column names. The grey row is a sample. Delete it and add one row for each real item.

1 · People and setup

Before phase 1. Also send the site name, a logo (PNG or SVG), the certificate signatory's name and title, and a video host with download turned off.

NAME	EMAIL	ACCESS	DEPARTMENT	JOB ROLE
Sample person	*name@example.org*	*Member and employee*	*Sample department*	*Sample role*

Access is Member, Employee, Academic officer, or Manager. One person may hold more than one.

2 · Library

Before phase 3. One row per sermon, recap, policy, training manual, video, audio item, or learning material.

TYPE	TITLE	SPEAKER OR AUTHOR	DATE	SERIES	LINK
Sermon	*Sample sermon title*	*Sample speaker*	*12 Jan 2026*	*Sample series*	*Host link*

3 · Manuals

Before phase 3. Faithline Manual and Counseling manual. One row per section, in reading order. Or send the source PDF and we will split it.

MANUAL	ORDER	SECTION TITLE	TEXT OF THIS SECTION
Faithline	*1*	*Purpose*	*Why this manual exists, in your own words.*

4 · Courses

Before phase 4. One row per lesson. Repeat the course name on each row.

COURSE	ORDER	LESSON	VIDEO LINK	READING	FINISH WHEN
Sample course	*1*	*Welcome*	*Host link*	*Welcome page*	*All lessons done*

5 · Assessments

Before phase 5. One row per assessment, plus a second sheet of questions.

ASSESSMENT	WHO SITS IT	PASS MARK	TIME	GRADES A / B / C
Sample assessment	*Members*	*70%*	*30 min*	*85 / 70 / 50*

Question sheet columns: number, question, option A, option B, option C, option D, correct answer, marks.

6 · Onboarding tasks

When a segment is agreed. The shells are built before this sheet arrives. One row per task.

DEPARTMENT	JOB ROLE	ORDER	TASK	REQUIRED
Sample department	*Sample role*	*1*	*Read the staff handbook*	*Yes*
